EXP 5: REPORTS, DASHBOARD AND UI BUILDER (PAGES) IN ZOHO CREATOR

AIM

To create reports, a dashboard and a custom page using the UI builder in Zoho Creator for the Library Book Issue Management application.

PROCEDURE

A. Reports

1. Open the application, click **Edit this application** and select **Report**.
2. Choose the report type and the source form **Book Issue Request**.
3. Create a **List** report (All_Issue_Requests_List) with filters for Book Category, Member Type and Issue Status.
4. Create a **Spreadsheet** report (Issue_Requests_Spreadsheet) for editable tabular data.
5. Create a **Kanban** report (Issue_Status_Kanban) grouped by Issue Status.
6. Create a **Calendar** report (Due_Date_Calendar) based on the issue date.
7. Create grouped and summary reports: Member_Wise_Issue_History_Report and Summary_Status_Report.

B. Dashboard

1. Create a dashboard page named **Library_Dashboard**.
2. Add a Count (Total Book Issues), a Gauge, a Chart of Book Category, an Issue Status Board and the Send_Overdue_Reminder_Button.

C. Page (UI Builder)

1. Open the **Page** builder and create **Library_Command_Center_Page**.
2. Drag and drop elements: Report (All_Issue_Requests_List), HTML Snippets for library rules, Count boxes (Active and Overdue Issues) and the Book Issue Request form.
3. Click **Done** to save, then open the page to view the output.

OUTPUT SCREENSHOTS

RESULT

Reports (List, Spreadsheet, Kanban, Calendar, Grouped and Summary), a dashboard and a custom command-center page were successfully created in Zoho Creator, and the application data was displayed correctly in each.
